

The Holocaust as a Political Weapon Against the Germans

German Attorney Horst Mahler

Exposes the Meaning of the Holocaust Taboo and Hate Speech in this Video.

(approximate date: 2005)

To begin with, I'd like to make a few introductory comments because we Germans have been trained in a way that we no longer examine certain thoughts. Emotions are then always used to fend off these thoughts vying for our attention. We do not evaluate thoughts as to whether they are correct or incorrect, true or false, but whether they suffice certain moral categories, whether they are politically correct.

There is a taboo that has been implanted in us for decades, perhaps even more than a century, so that we no longer perceive certain topics objectively. Themes around Jews; and that's from the position of both sides, whether they be pro-Jewish or anti-Jewish. The topic Jewry-Jew is guarded in us by the let's call it, thought police. We are not allowed to think about this matter logically.

In what follows here, however, we are now thinking about the Jews, and about how the Jews relate to us Germans, and how we Germans relate to the Jews, and that which comes up is so dreadful for the typical German, that he tends to get up and walk off shouting. It's also about the topic Holocaust.

Holocaust as a political weapon of the enemy of the Germans, the weapon of Jewry. And to just speaking this out loud, elicits intense reactions. But it is important to attain clarity within us, so that we will finally break through and again judge thoughts coming to us according to their particular value, to see if they are correct or incorrect, true or false.

I declare right from the start, this Holocaust 'religion' is built upon the most monstrous lie in world history. The Holocaust, the way it is used to accuse us of murder of the Jewish people, is an invention!

I am certain that all the public prosecutors are jotting this down now to initiate preliminary proceedings [against me]. But this has nothing to do with the application of the law; instead they are executors by the demands of a foreign power, an enemy power within our own country. Against this power, we must rise up! It is about the insurrection of the German people for their preservation, for their freedom, and a rising up against the efforts to destroy the German people. The main weapon and main strategy in this war against the German people is the lie of the 6 million Jews killed in Auschwitz or 4 million killed in Auschwitz; 6 Million it is supposed to have been all together. And we will not be alive, we will not survive, if we do not extricate ourselves from this lie. This has nothing to do with their usury, that money is wrenched from us, that too, but that is of complete subordinate importance.

Simply stated, it is about comprehending that the German people are being murdered; it's about soul murder of the German people! And this sounds so terrifying in the ears of the typical German citizen who does not dwell on this topic, that he may now already shut down. But, then he is only hiding from himself. He is anxious. He feels that these thoughts could be true, but he does not want to grapple with them.

Our weakness is that we can't even think so badly of the Jews, about how Jewry has harmed us, the German people, throughout history, but especially in the 20th Century, how they have acted against the German nation, but also against all other nations, especially the Europeans. These thoughts we must test, but first we must allow them for examination to see if what I am saying here has serious grounds.

I want to start with the Holy Scriptures of the Jews. Actually, first I will go to the New Testament, these are the Holy Books of the Christians. It is not widely known that the issue around Jewry and their lies has already played a fundamental role in the New Testament. Jesus says to the Jews [John 8:44]: "Ye are of your father the devil, and the lusts of your father ye will do. He was a murderer from the beginning and abode not in the truth because there is no truth in him. When he speaketh a lie, he speaketh of his own: for he is a liar, and the father of it."

A more scathing judgment upon a social union, a tribe, or whatever you want to call it, can hardly be thought of. And one has to really reflect whether to say this once again so publicly, but, I mean, it is necessary.

We have a moral relationship to all nations, to all people. We look at them, more or less, as our equals and have inhibitions to think about them in a way that is necessary in order to notice that there is **one tribe**, one **'chosen people'**, that has no moral relationship to all other nations; instead, it wishes that these other nations will be crushed, that they will be killed!

This is something totally alien to our conscience. The Jews are these chosen people. And one must always ask the question, "Who has chosen them?" Have they been chosen by our God, the one we pray to, the Christian God? Or is it an all together different God who has chosen them, a God who is -according to our standards and our understanding of God and the power of evil- in reality Satan as the God of the Jews?

Whereby the word Satan is, actually, a very practical word; it is the Hebrew word for antagonist, opponent, enemy. In the story of salvation, we learn about the concept of God and his works in the world. We also read about an evil power, Satan; and it is Yahweh, the God of the Jews, this evil power, who has chosen one race to murder all the other races.

It is expressly stated in the Old Testament of the bible, that it is the intention of this God, to murder all nations. **It states in Isaiah 34:2 "For the indignation of the Lord is against all nations, (all nations) and His fury against all their armies. He has utterly destroyed them. He**

has given them over to the slaughter. (To the slaughter!) Also, their slain shall be thrown out. Their stench shall rise from their corpses, and the mountains shall be melted with their blood."

The annihilation program of Yahweh could not be stated more harshly.

We are used to it to no longer take these ancient writings seriously, and that is already a deadly mistake. We have to ask ourselves the question, how is it that one people from an ancient tribe stands out in this present day and makes itself known in these ways that have become a problem and has become a real might today, a world power?

How can it be explained, that the Jews, disbursed among all nations, were able to contend themselves as this power, as this Jewry over four thousand years and have such prominence today? All other ancient tribes of pre- history have perished: the Assyrians, the Babylonians, the Persians, the Egyptians, the Greek, the Romans. All of them are gone. Only this one tribe, chosen by Yahweh, is still here today [in its ancient ways]. And not only that, it is world dominating through money and the media. **And it is the enemy inside of all countries.** An internal enemy! The German philosopher, Johann Gottlieb Fichte [1762-1814] stated already then very clearly: "It [Jewry] is an enemy state," and that fact one could handle, but he also says, "This state is founded on the hate of all people." Just as I have read it to you.

We make a crucial mistake, when we do not take the Holy Scriptures of the Jews seriously because what is written in them is the cultural and spiritual substance of this Volk. Can one call it a Volk, this race, which is in all countries a minority and yet is an enemy state within a state? And one cannot be in greater danger than to have a real, an actually present powerful enemy in one's own country and not to name him and not to perceive him.

Because, then this enemy has the opportunity to execute his destruction plan in secret, and he will then murder all nations in this way, the way it is done to the German people. We are the subjects of soul murder. And soul murder means that we are destroyed as a people. I am not saying that the Germans will all be murdered physically. **But as a people, we are losing our existence and then are considered nothing but a biomass, freely accessible for totally different interests that are not ours. That is the backdrop situation.**

And we will experience a time when everywhere, they will talk about nothing but anti-Semitism, and then everyone will attack those whom they declare anti-Semites. But no one asks what is the reason for the anti-Semitism? The Germans are known for being diligent, that they always ask for the reason of a symptom. So, we have good reasons to ask: "If there is anti-Semitism -whatever is meant by this- and this anti-Semitism has such importance that one is even considering a UN declaration against anti-Semitism, what is the reason that there is such a phenomenon? The Jews condemn everyone whom they mark and identify as anti-Semite, but they would prosecute every question regarding the cause of anti-Semitism as a crime. In actual fact! This they define as 'inciting hate.'

If it is correct what I said, that in every state there is an internal enemy, then we have to ask this question: **What is the reason for this anti-Semitism?** But all these deliberations are blocked off today. For every dialog, for every discussion, for every debate-politically, culturally, and relating to world view, there is a taboo which acts as an unspoken prerequisite. We may present arguments only as valid and only even express them when we silently come from a position that Jewry, the Jews worldwide, have always been the victims, were always right, and have been innocently persecuted. And sharpened into our situation, it is an unexpressed prerequisite that we may talk with Jews and about Jews only under the condition that we agree that the German Reich, during the time from 1933 to 1945, i.e., under the National- Socialist Leadership, has physically exterminated the Jewish people in Europe.

Whoever does not accept these stipulations is also an enemy of the Jews and of all who follow the Jews, and of all those who are afraid of the Jews. Then one is the enemy, one is haunted down and just simply loses one's freedom. But, to make these presumptions, always leads only to desired results which are playing out against our own interests and against our right to life. **I deny that this systematic persecution during the time of the Third Reich has taken place. I am stating that the so-called Holocaust, meaning the thesis that Jews were gassed in large numbers, is a lie; it is the most horrendous lie in the history of the world; the most consequential lie.**

It is about the life of nations, especially the German people. And now is the beginning of the uprising of the German people against the foreign power [inside of our nation] which is powered by this monstrous lie.

The uprising of the German Volk to survive starts with the uprising for the truth. This cannot possibly be something bad. For the truth because everything that has been established in the last century in the political arena in Europe and beyond as a result of the two world wars is built on a lie. Build on the Jews as victims, unjustly persecuted, and on the lie that the German Reich wanted to get rid of this problem, the Jews, by physically exterminating them.

We now have a whole line of legal proceedings where this question takes center stage. In my opinion, these litigations are necessary and are the only possibility to force our enemies into a certain dialogue situation. Before the courts, we have an opportunity to present the facts which refute the lie. **And it will prove clearly that the intention of the lie is the destruction strategy by a minority tribe to subjugate people of all nations, worldwide, or to even annihilate them.** This is also not an anti-Semitic invention, but it is in the Holy Scriptures of the Jews, in the Old Testament, again in the Prophet Isaiah. There it states, in the prophecy by Isaiah of the God Yahweh to the Jews: "And your doors shall always stay open, shall neither be locked day nor night, so that the heathen power can be brought to you, and their kings can be lead to you. Because the heathen power and kingdoms **that will not serve you**, they shall be annihilated and the heathen devastated."

This is clearly an imperialistic program. The program of the Jewish world rule, who with this blatant and brutal form of subjugation of all nations, and with a threat which then will also be

realized, will kill the people of all those nations who will not comply. The German Volk had made the effort to defend themselves against the imperialism, not to accept the Jewish World dominance, and to shake off the Jewish control installed via money and the media.

That's the backdrop, and we have reasons to see things from a completely different perspective than represented today in the schools, the media, and cultural institutions. That is all Jewish hate propaganda-Jewish war propaganda against the German people because the German people have a special significance. Germans are in the heart of Europe the strongest, culturally the finest educated Volk, which of course [would lead] all of Europe to a **bulwark of resistance** against the Jewish world rule through the so-called Dollar Imperialism, through the Globalism, through the World Monetary System -and against their media system- their Media Monopoly.

This is why Germany, the German people, are the focal point in the annihilation pursuits by Jewry. The weakness to debate against it [their plan] always exists in the fact that it has not been recognized that these efforts of Jewry, to eliminate the people of nations, is also part of the godly doing.

Not a part of the godly plan -but according to the German concept of God in philosophy- God is not perfection in the beginning, but history itself is the process through which God becomes conscious, and then finally knows himself. Recognize yourself! This oracle saying from the ancient Greece has this meaning. It is God who, through world history, through human beings who are godly, experiences himself. And in this process, God, who is the only God and no second one stands against him, the Jews play a negative role that is necessary for the liberation of the individual, the person, and the nations. Their negative role is a part in the godly events. There is this famous scene in Faust where he answers, "I am a part of that power which always desires evil, but always creates good." This means, this harmful force which desires the negative, the destruction, the extermination, killing as a way of life, creates through a reaction the good. It is like an injection waking up resistance in the body against deadly dangers.

Realizing this side to Jewry, one can no longer hate the Jews. They are necessary in God's salvation. The insight that this is the role of the Jews for our salvation, for our completion and our freedom brings peace to us regarding the Jews. But not in a way that we ignore their hostility, but that this [recognition] will even first put us into a position to deal with them as an enemy.

And here in Germany this turns immediately to the political. This enemy must be recognized in Germany as the ruling impetus, as the foreign power in Germany over the German people. And these legal actions, now around the questions: Did the Holocaust happen or not? Can one contest it? Can one renounce it? These actions, which are taking place everywhere, are a possibility to instill awareness in the public, these questions.

Next, there will be the legal process against Ernst Zündel, who was seized from Canada and brought to Germany. After two years of extradition incarceration in Canada, he is now in jail in Mannheim. On November 8 or 9, the legal procedures will commence before the Landgericht\Mannheim against Ernst Zündel, who is the pioneer of this thought movement to put up a fight against this fabrication [Holocaust]. In Canada he succeeded in winning the rights to deny the Holocaust, and to speak about it in public. He was indicted in Canada and after a ten- yearlong process was recently acquitted.

But then he was arrested under flimsy excuses that he is supposedly a security risk for Canada. After he had been sequestered in the U.S. and hauled off to Canada, he was imprisoned for 2 years on a charge of being a 'security risk.' This single man, who spoke in a single voice, in his own behalf, he is supposedly a security danger for the great land of Canada! This means, the truth is feared by those whose' supremacy is based on the lie. In this way, Zündel is a danger; but only for those who control with the lie. After 2 years of 'security risk' incarceration, he was deported to Germany. He is a German citizen.

Some time ago, he immigrated from Germany as a young man because he could not stand living in Germany any more. He thought that those things that are said about Germany after the war were true. This was so unbearable for him that he left for a foreign country, for Canada. He met a Jew there who asked him: "Tell me, do you really believe all that is said about Germany?" It baffled him to hear this from a Jew. And this Jew gave him reading material and said: "Here, read this, read that, and read this, too." And so, he became aware of things which had totally faded out of public discussion in Germany, and he began to doubt. The nagging never let off, and so he turned into an advocate for historical truth.

Because he had published his doubts on the Internet, but also pointed to writings that in the same way deny the Holocaust circus, this is why he is before the courts, and is now almost 2.5 or 3 years in detention based on Paragraph 130. This is not a [German] law, but a decree by a foreign power. He will be spending still more years in prison, perhaps 5. This legal action, and parallel to it other court cases against Germans, and also against me, are now the forum to bring these issues into discussion. We have seen that this process is having some breakthroughs.

It was not only the litigation against Ernst Zündel, but also the proceedings against Robert Faurisson in France. Zündel presented in his court case the so-called Leuchter Report by an American execution specialist for gas chambers and electrical chairs. Leuchter, recommended by the American government as the expert for this court case, examined the situation [locations] in Auschwitz and Treblinka and asserted: "The claim that people were gassed to death here is physically impossible." This Leuchter report got worldwide attention, but in Germany it was silenced.

Guenther Deckert, who was then the Chairman of the Socialist-Democratic Party, has recently been sentenced to 5 years of prison. He has served his full 5-year sentence. It began with him translating Leuchter's presentation into the German language in Germany Leuchter only

speaks English. Mr. Deckert incriminated himself by facial expressions, mimicry, that supposedly expressed agreement to that which Leuchter delivered, namely that the Holocaust, the way it is presented, is impossible according to natural laws. Just that alone has led to Mr. Deckert being convicted. The German public is to a great extent not aware of this. People do not trouble themselves with such things. I was the same way. I did not consider this possible [Holocaust lie], until I was representing the German singer, Frank Rennie as defense attorney. I was obliged to engage myself intensely with these things, and scales fell from my eyes. I had to ask myself, how can it even be possible that our awareness faculty is so limited that we do not heed even the most obvious in view of this monstrous accusation against the German people that we are no longer able to ask the question, 'What does it mean to kill 4 million people in a limited time, from 1942 to 1945, on a limited space on earth, and then make them disappear completely!' What conditions would have had to be present in nature, in the physical world? What must have happened here, and is this even possible, in this location, under the structural conditions, and with this means of killing? Is all of this possible? That is already the nearest deliberation as to how this has taken place? How were they supposed to have accomplished this? The reality is, this is full of contradictions and in fact ridiculous lies.

I tell you, this whole story should be presented in the form of a Cabaret show so that people even notice what has been done to them. One must become free from this repression based on the prerequisite that it really happened, that the Jews are in this way really the persecuted, and massacred nation. When one frees oneself from this, then the whole thing is exposed as a farce.

We have now taken our positions in this campaign against the invented obviousness of the Holocaust to bring it into the consciousness of those circles of our people who still even have the capacity to think. And I am sure that it will not be great masses who will contemplate this issue, but there will be increasingly more mentally capable and wakeful Germans, who will notice that there is something monstrous, something colossal that has happened which also poses the question, 'What is man?' 'What is going on in this world?' The whole spiritual question takes on a new dimension, and timely meaning, and this can signify the starting point for a refocus on the spiritual, the godly meaning.

I think that in these proceedings that are taking place, where we have the newest discoveries of the numerous historical researchers, especially the foreigners -the Germans are, of course, under the general suspicion to be participating. But it started with Paul Rassinier a French Communist and resistance fighter [during those days] who suffered in the concentration camp Buchenwald, and who is putting into question the official story due to his own experience. Then there is the Frenchman, Robert Faurisson, a Professor for Text Critique at the University Sorbonne; in other words, he is in charge of critiquing historical documents and has become the harbinger of a whole historical school that by means of research takes apart these colossal lies. Then there is Jürgen Graf, a Swiss, Carlo Montagno, an Italian, and then of course German researchers, who out of their own experience decided to get to the bottom of these things.

Also the German, Germar Rudolf, a chemist, who was completely non political, and who acted as expert witness in a court proceeding against General Otto Remer for 'inciting hatred in the nation,' who examined the so-called execution chambers, called gas chambers, in Auschwitz, and based on his chemical analysis has proven, and I mean without a doubt, that if these massive gassings would have taken place, there would be definitely lasting traces, and a certain blue coloring in the walls which are not present. He compared this with the gas chambers that did exist [small chambers] where they treated textiles, clothing, mattresses, linens, etc. to keep the typhus epidemic in check, where the blue coloring of the walls is present. He compared both and said: "If there had been people gassed [in those so-called gas chambers], then the blue color would have had to be even more intense in those rooms because more Zyklon B would have been used." This is an important cornerstone.

All these men, who have shown much courage, have been persecuted by the justice department. Germar Rudolf lives in a foreign country due to the scientific research he published, and then presented in court, which brought him a sentence of 2 years and 8 months of prison, I think. Then there is Jürgen Graf, a Swiss citizen, who has also represented himself in the same issues as historian, who had been sentenced in Switzerland, and lives in Moscow now in exile. These are situations that are now being discussed.

Until now, all courts have refused to even let evidence be presented, claiming that the opposite is true, [namely the Holocaust exists] and that it is obvious that this mass extermination has taken place in such, and such a way and at such and such place with Zyklon B. For that reason, they say, evidence is unnecessary, not even permitted in court.

Only what is meant by obvious here? For something to be obvious, especially regarding historical facts, it presupposes that the asserted facts are adequately researched by the historians, a certain outcome has resulted which is not disputable, and which a reasonable and sane man would not question.

How was it with the Holocaust? It took 13 years, from 1945 to 1953 until this unparalleled, and unbelievable crime against humanity, representing a collapse in civilization, even has become the subject of criminal determination against alleged offenders. 13 years from 1945 did it take until, based on the statements in litigations of one prisoner -I think it was in the penitentiary Butzbach (?)- this gruesome event was asserted and established from then on as the undisputed, obvious occurrence.

Even though there were right from the beginning vehement objections against this theory, in other words, it is not obvious as asserted because the objections existed, and these objections were suppressed by means of 'criminal law.' All researchers who questioned the official result have been accused of being agitators or offenders who hurt and insult the memory of the dead and have been overrun by a law suit and punished with prison. This means, even according to legal concept theory, it cannot be called a manifest case because this depiction that took 13 years to even become a definition, was already questioned from the beginning. That these

[objectors] have been forced into silence by criminal court actions means that the lie has established itself here and has persecuted the truth by proceedings in Criminal Court.

And this is now in a changed world an explosive force, where the Jews have indeed stepped over the line with their world rule and more or less have made all nations into their enemies. And now we also have the newest research results! All these court cases are now taking place in a changed world situation. The Jewish world government, which is trying to sell itself as globalism, is taking on such hideous traits that now more or less people of all countries are standing up against this foreign rule of the plutocrats just for their survival alone. And this world rule oligarchy is based today primarily on the Holocaust lie. Anything that one says against the Jews is immediately blocked with, "That's going to lead to another Holocaust!" "This must never repeat itself!" And everyone ducks. Because, they are afraid. Politicians who stand against this will be mercilessly destroyed by the media.

Even pope Benedict XVI has asserted this, when he was still Cardinal Ratzinger, in his book published by the Olf Verlag. He said, "The media has the ability to 'execute' people publicly, to destroy their livelihood, and whoever brings this critically on the table for discussion is called an enemy of freedom, because he is against the freedom of expression!"

We now have this book by Germar Rudolf -I would like to show it here- Vorlesungen ueber den Holocaust. Germar Rudolf, I have mentioned him before, a chemist, who was completely non political, who as scientist wanted to get to the bottom of this situation, and who acted as expert witness in court proceedings against General Ernst Remer for 'inciting hatred in the nation,' and who made the baffling discoveries that all of these [accusations] do not hold any water and that natural laws in physics will expose the witnesses' assertions as lies.

And he presented the whole research of all renowned so-called Revisionist Historians, and at the same time listed the objections which are presented here from the opposition -the attempts to ridicule this [the revisionist work], to call it unscientific- and has treated here the issue and shows in this book by a scientific method with more than one thousand notes, references, and documents and with indisputable historical facts from all sides, that all of this [Holocaust accusation] is a gigantic lie. And this book that is now in the center of all these law suits, is made the object of certain evidence motions. One would have to be of the opinion that all lawyers in the service of the BRD (Bundesrepublik Deutschland), which is no state, but an organizational form of an arrangement by a foreign power -as Carlo Schmid had already expounded before the Parliament council- that all those lawyers are scoundrels and are acting against the essence of justice in order to repress the truth.

Such an assumption that it would be possible in a nation of culture that all of them [the legal representatives] have sunk in this way to the status of scoundrels, I consider highly unlikely. There will be a situation where we will have a breakthrough. In one situation, the lawyers will no longer go along with this. There are clear indications that this may be imminent. We are leading these processes and that has effects in the legal community.

There is an article that came out in May by a retired judge, formerly chair at the district court Hamburg, where he points out that this 'incitement of hate' paragraph [Paragraph 130], which punishes the denial of the Holocaust, is not in agreement with the constitution of the commitment of the foreign power, article 5, 'Freedom of Opinion,' and therefore conflicts with the constitution. And he points out that opposition has been expressed against these determinations for a long time. And he says further that this opposition to the validity of Paragraph 130 is imperative; and nevertheless, the Bundesverfassungsgericht (German Supreme Court) has not risen to the occasion to this day, as he says, to take a position on this question. In other words, the court hedges. If it would be of the opinion that the controversial Paragraph 130 is congruent with the constitution, it would long have cleared up the argument. But then the Bundesverfassungsgericht would have exposed itself as collegiums of scoundrels.

There was a paper earlier, in 1996, by lawyer Stefan Huster -I assume he belongs to the Jewish minority- where he presented all possible strategies combining article 5, Freedom of Opinion, and Paragraph 130, to prove that they are in accord. But, it shows that these [outcomes] are not conclusive but always bring new and greater difficulties as a result. And to state it succinctly, the accusation that someone who renounces the Holocaust, in other words someone who has a certain opinion, incites hate under Paragraph 130, is the model case of a special law against a certain opinion.

And such special laws cannot exist according to article 5 of the constitution. Now, one would have expected that Huster would have proclaimed that therefore Paragraph 130 is invalid and that the Bundesverfassungsgericht must quickly initiate clarity. No, he does not take such action. He says: "For this single case, the persecution and destruction of the Jews, one must make an exception from Article 5 of the constitution in order to open up the desired application of the hate law."

I don't think it is necessary to comment on this. This no longer has anything to do with lawful thinking. Here, in a cynical way, everything which is right and rightful thinking is thrown overboard. Bertram is bringing this issue again to the table in 2005. That is not a coincidence. Bertram says it is about time that this special path of the BRD will be abandoned and that the BRD will return to an equitable constitutional state of affairs. This means, that what we had presupposed is showing up now.
